Specifications:-

- The module can detect the surrounding environment of the humidity.

- High reliability and excellent long-term stability

- The output from the digital output

- Humidity measuring range: 20%~90%RH(0~60 degree (temperature compensation).

- Temperature measuring range: 0~+60degree.

- Humidity measurement accuracy: ±5.0%RH.

- Temperature measurement accuracy: ±2.0degree.

- Low power consumption.

- The module can detect the surrounding environment of the humidity and temperature

- High reliability and excellent long-term stability

- The output from the digital output

- Has fixed bolt hole and easy installation
