

All In One Solar street light is a new age and compact lighting solution integrating Solar panels, LED light, Lithium-ion battery and a PIR motion sensor. This light incorporates efficient driver technology which combines world class battery charging technology with high efficiency electronics.

All In One Solar street light uses a PIR motion sensor to adjust the LED light brightness intelligently. On detecting any movement, the LED glows at full brightness. If no movement is detected for more than 1 minute, the brightness is reduced to one-third. This intelligent brightness control coupled with maintenance free Lithium-ion battery technology provides longer backup time and better battery life.

26011A - 12W LED - 40W panel/10Ah Li-ion battery
26011B - 15W LED - 40W panel/15Ah Li-ion battery

Note: Specifications are subject to change.
