

**Details:**

- A screw operated load frame capacity 50 KN (5000 kgf) with a gear box and motor drive giving 1.25, 1.5 and 2.5mm/min, rates of strain, Suitable for operating on 230 volts, single phase AC.
- Cone seating : One pair of cone seating
- Adapter : Adapter for proving ring and strain dial gauge bracket.
- Coning tools : One pair of male/female coning tools for 38 mm dia samples
- Split Mould Size : 38 mm x 76 mm - 1 no.
- Proving ring : High sensitivity proving ring 250 kgf with Calibration chart
- Dial gauge : 0.01 mm x 25 mm trave
- Overall Dimensions : 560 X 630 X 1270 (L X W X D) mm
- Weight (kg) : 128 Kg

Note: Specifications are subject to change.
